

STILLWATER WORKSHOP
SATURDAY FEBRUARY 16 9AM TO 1 PM
ODDFELLOWS HALL
520 DANA ST SLO

Several years ago David Holmes & I had the opportunity to attend the California Stillwater School. Phil Rowley, one of the top Stillwater gurus was one of the presenters. Phil was kind enough to give me a copy of his Power Point presentation. Using the presentation Bernard Pieters, Mark Shelton and I will lead this workshop. We will discuss Stillwater fly fishing, agree or disagree with Phil's suggestions and answer your questions. There are 3 sections to the workshop:

Floating Line Techniques

Going Deep – Sinking Line Strategies

Indicators for Stillwaters

Many of our outings (Hunter Liggett, Hume Lake, Manzanita, Almanor, Crowley, etc. offer great opportunities to up your Stillwater game. This workshop will prepare you.

The workshop can get pretty technical but if you're into Stillwater fishing either as a beginner or an experienced "never stop learning" fisher like me sign up.

No need to RSVP just show up. Questions contact me at: lsleichter@hotmail.com or 805 934-2476

Lew
